

SHARING SKILLS, INSPIRING **CHANGE**

# ENTERPRISE

Business and social enterprise partnership programme

TINDER  BOX  
the performance spark

## DO YOU WANT TO **INVIGORATE** YOUR BUSINESS WITH NEW LEARNING AND HELP CREATE SOCIAL CHANGE AT THE SAME TIME?

Supporting charities and social enterprises is something many businesses are keen to do. The question is how do you ensure your support makes a tangible social contribution? At Tinder-Box, we believe that businesses and social enterprises have much to learn from each other – learning that can have long-lasting, enriching effects on both organisations.

## GREATER **IMPACT** THROUGH CONSTRUCTIVE COLLABORATION

When businesses and social enterprises share their skills, amazing things can happen. We've partnered with a number of high profile social enterprises (such as Fifteen) so we understand how they work and we know what an inspiration they can be for the wider business community, from big corporates to SMEs.

The passion and commitment that lie at the heart of all social enterprises is a great motivator, giving you learning that you can take back into your own organisation. For example, transforming your style of leadership or reconnecting your business with its mission. While you're gaining new learning and inspiration, we will help you focus your skills and know-how, enabling you to have maximum impact on your social enterprise partner and its future success.

## **HOW** IT WORKS

The Tinder-Box team will facilitate the whole Enterprise experience from design to implementation. Here's what we'll do for you.

**Stage one:** The first thing we'll do is help you identify what skills you have to offer and what you want to get out of your experience. We'll help you establish the outcomes both for your business and your social enterprise partner ensuring you both get measurable benefits.

**Stage two:** Next, we'll match you with a social enterprise that's already identified a specific business objective. We'll examine your skills, objectives and passions to find the best fit. This ensures we can create a win-win situation; one where both parties experience optimum results.

**Stage three:** We'll use our knowledge and creativity to design a bespoke programme. This could be a one-off, two-day experience or a longer programme of events interspersed with coaching. Alternatively, Enterprise may form a module within a pre-existing programme. As part of the programme you'll get to learn about your social enterprise partner and what it takes to deliver its agenda. You'll also get to use your skills to support your partner in addressing its business challenges, thereby ensuring its on-going success.

**Stage four:** At Tinder-Box, we believe that the best learning occurs, not in a meeting room but in a real-life environment where your social enterprise partner's actions are most meaningful. This way, you'll get to really understand the difference your input is making and receive invaluable feedback on your leadership style and impact.

### What Enterprise will do for you:

- Provide an opportunity to embed real learning into the hearts and minds of your teams, leaders and business
- Help you to understand what it takes to create powerful and lasting engagement with your mission, business and direction
- Provide a unique experience to turn the words in your leadership framework into real behaviours to drive your business forward
- Widen your outlook, giving you a fresh perspective on a different business operation
- Give you the tools to evaluate your skills, both individually and as a team, and challenge you to use those skills in a different context
- Provide an opportunity to make a social contribution which delivers impact and lasting results

## TAKE THE FIRST STEP TO POSITIVE **CHANGE**

Enterprise has the power to make a real difference to both your business and your social enterprise partner. If you're passionate about sharing what you know, and about bringing new learning into your organisation, we're ready to design a dynamic Enterprise programme around you.
